Improvement Strategy-

To increase the the total purchase we need to check several factors like - Checkout process needs to be simpler, there should be no hidden charges i.e. pricing should be clear ,increase the trust factors by encouraging customers to review their purchases. Also, Desktop Optimization could also improve our conversion rate as large number of customer access our platform.

Customer Contribution

Key Insights

United States is the major contributor of our business with revenue of 3 millions from there.

Our Refund Target is 5% and our Refund Rate is 2.92% which is in acceptable limit ,which indicates good product and service performance.

To increase sales in other countries we need to start more marketing campaigns there in order to attract more customers.
